

Junior was walking out with a friend,  
When he turned around and said "Stop me I might just do it again",  
Try stop me, try stop me, try stop me, try stop,  
I want to live my life not survive my existence and feel like I got the lot.  
Senior is teaching don't make mistakes we never made,  
But those were yesterday's mistakes and today's mistakes have changed,  
So sue me, so sue me, so sue me, so what,  
I want to live my life not survive my existence and feel like I got the lot.

Got the lot, got the lot, got the lot.

Superiors dictating that's the way its gonna stay,  
And pointing straight to junior says "You'd better not do it again",  
Just watch me, just watch me, just watch me, just watch,  
I want to live my life not survive my existence and feel like I got the lot.

Got the lot, got the lot, got the lot.

And what you had,  
And what you did,  
And what you got,  
And what you lost,  
And what you want,  
And what you will,  
And what you won't.

Just watch me try stop me so sue me so what,  
I'm going to live my life not survive my existence and feel like I had the lot,  
Try stop me so sue me just watch me nice watch,  
I'm going to live my life not survive my existence and feel like I did the lot.

And what you had,  
And what you did,  
And what you got,  
And what you lost,  
And what you want,  
And what you will,  
And what you won't,  
You won't.

Got the lot, got the lot, got the lot, got the lot,  
Got the lot, got the lot, got the lot
