Maybe it's time to make a bee-line
No more sitting on the sideline
Haven't got the time to waste time
So maybe it's time to make a bee-line

Hold on, wait just a minute
Stop right there, don't go nowhere, stay where you are
Oh, keep on don't give in to it
Be aware be debonair be what you are

Cos, maybe it's time to make a bee-line
No more sitting on the sideline
Haven't got the time to waste time
So maybe it's time to make a bee-line

Go on you could be lucky
Take a chance, just make a stance and let 'em know
Oh, straight ahead where the road's not crooked
Just give a glance a skip and dance and off you go 'cos

'Cos, maybe it's time to make a bee-line
No more sitting on the sideline
Haven't got the time to waste time
So maybe it's time to make a bee-line

Maybe it's time to make a bee-line
No more sitting on the sideline
Haven't got the time to waste time
Maybe it's time to make a bee-line
