

## Roll Truck Roll

Terry Allen

Yeah roll truck roll  
Yeah roll truck roll  
Better get on down the highway  
You better get on ... down the  
Road

Yeah I work for a trucking  
Company  
And my forearms big as beef  
If it wasn't for the highway  
My family'd be on relief

Yeah lonely heart wreck hitch hike truckstop  
Ahhh sad cafe where the people never care  
Yeah you think you ordered a big hot beef  
Sandwich  
But you're the one that's gonna get eaten in there

Yeah the waitress smile is like some witch's womb  
(WOO)  
An her black dress moves like water through the  
room  
An flowers die ... twisted across your table  
An the menu reads like a tattoo on your tomb
