

It's Been There From the Start

Terry Jacks

If it's love that you want from me
Come on and take it
If it's money that you want from me
Come one don't fake it

But please don't step on my heart
It's been kicked around once or twice
It's the same old story
Got a lot of love for you
And it's been there from the start.

If it's love that you want from me
I gotta know it
Because my love is all I've got that's real
And I can show it

But please don't step on my heart
It's been kicked around once or twice
It's the same old story
Got a lot of love for you
And it's been there from the start.

But please don't step on my heart
It's been kicked around once or twice
It's the same old story
Got a lot of love for you
And it's been there from the start.

But please don't step on my heart
It's been kicked around once or twice
It's the same old story
Got a lot of love for you
And it's been there from the start.
