

Lovely Lilly Lou

Terry Scott Taylor

Lovely Lilly Lou coos like a dove
Lovely Lilly Lou
She's in love
So much in love with the lovely world around her
Simple things astound her
Strong, loving arms surround her
It's hard to be blue when everything's cool with our lovely Lilly Lou

Lovely Lilly Lou burns like a fire
Lovely Lilly Lou
A live wire
A real live wire
Got that look when things don't quite go her way
Might ignore you when you ask her to play
Then she'll laugh, and then you'll know it's okay
What are you gonna do?
It's fun to play the fool with our lovely Lilly

Grandpa Stan
That lovely man
He loves to hug her
(Look out! Don't bug her!)
And Grandma Gail is on her trail
Can't get enough of her
(See how they love each other!)

When Lilly grins
Great Grandma gives in and just melts like butter
And they're all doing well when they're under the spell
Of our Lovely Lilly Lou

Father Billy and Mother Lori got a little bitty baby that's their pride and joy
She's the heart and soul and the crowning glory of their very own story of love

Lovely Lilly Lou is dreaming tonight
She's dreaming tonight
Lovely Lilly Lou dreams a dream so bright
So big and bright
Of the angels that really surround her
Now her Mom and Dad's arms have found her
And another day meant to astound her comes into view
How do you do?
Good morning to you
Our Lovely Lilly Lou
A very good morning to you
