

## Electric Lady

Tesla Boy

Soul, soul needs more  
I need your touch you're electrical girl  
My mind is breaking the ties  
Of your supernatural type

Your pulse my pulse are synchronized  
We are synchronized

I wanna make love with you all night

Let, let it go  
I want to crack you and get to the core  
Why don't we start to reveal  
Our forced superpassional thrill

Your pulse my pulse are synchronized  
We are synchronized

I wanna make love with you all night
