You look straight and I smile way Watching streets go by
Avenues we've met today
Are renewed and I
Play the game till bitter end
It is closer now
Engine's off and I turn back
Goodbye

It's not loving
It's not loving
It's killing time

We fall We falling down

Well I have no one Left to rely The morn' is broken Into my eyes And I leave autumn My life to decide

It's not loving
It's not loving
It's killing time
