

A Lot to Lose

Tesla

I thought I saw the light, was it real or something I'm imagining

I thought I saw the light, if it was then tell me, did you see it too

Did you see the light, if you did now tell me, could you feel it too

Hey I saw the light, yeah tell me that you saw the light

I don't know why I even do it, all I know is I'm so glad

We always make it through it, one way or another

We're gonna make it or break

I got alot of love for you, I guess that means I got alot to lose

I got alot of love for you and only you

I don't know how we even do it, all I know is I'm so glad

We always make it through it, one more time now baby

Got me two times a wife, just like my mother

She's there to love and understand

Got me two times a wife, she really does have a touch just like no other hands

The sparkle in my eye, too many times I left her there alone at night

The way you light up my life, yeah your love is two times as nice

I don't know how we make it through it, all I know is I'm so glad

We always seem to do it, one way or another

We're gonna make it or break

I got alot of love for you, I guess that means I got alot to lose

I got alot of love for you and only you

I got alot of love for you, I do, and that's the way it should be

I don't know why we even do it, all I know is I'm so glad

We always make it through it, one more time now friend
