

## Fallin' Apart

Tesla

Another song about nothing feels right  
And everything is going wrong  
Seems we've been here once before  
Whose fault and who's to blame  
Doesn't really matter nothing's ever gonna change  
It's not working any more

I'm trying so hard to not let go  
I'm trying to let you know

Now I'm falling apart all over again  
All I got to do is keep on hanging on

Love is breaking my heart  
And love will bend  
All I got to do is hang on

You know what's sad  
We're losing everything that we always thought we'd have  
But that's the way it's got to be  
Who knows and who's to say  
There's nothing left to do but just turn and walk away  
Never thought I'd ever leave

I'm trying so hard to not let go  
I'm trying to let you know

Love is breaking my heart  
And love will bend  
All I got to do is hang on

I always thought we'd be together  
Oh, yea  
I always thought that we'd belong  
Oh, yea  
I always thought we'd last forever  
And I thought that we would never  
Ever let it go so wrong

Hang on  
Hang on  
Hang on
