

# Steppin' Over

Tesla

Never said I knew  
all the right things to do  
but I know when  
somethings wrong  
why would you choose, somethin'  
knowing that you'd lose, once again  
it's lost and gone  
never gonna change  
'cause you made up your mind  
ain't no body stoppin you  
crossing that line

You're steppin over  
to the other side  
we left a trail  
it only appeals  
to how it makes you feel inside  
I know although it seems  
the grass is growin and its always green  
you're steppin over

Wish I knew the way  
all the right things to say  
only no way you'd hear what I'd say  
I remember when you  
used to be a friend I could talk to  
and I trusted you  
say it doesn't matter  
but did you want it this way  
ain't nobody stoppin you, take it away

You're steppin over  
to the other side  
we left a trail  
it only appeals  
to how it makes you feel inside  
I know although it seems  
the grass is growin and its always green  
you're steppin over

Step on over, it's all yours  
no one can touch you in your world  
you're safe inside  
don't even take the time to think about what you left  
on your way to paradise

I've been hopin'  
when you open your eyes  
that you see it right  
i was hopin'  
i keep dreamin  
to set it aside, stop feelin' alive  
only i'm lying to myself  
if it doesn't matter, then your losing your mind  
ain't nobody stopin you, cross that line

You're steppin over

to the other side  
we left a trail  
it only appeals  
to how it makes you feel inside  
I know although it seems  
the grass is growin and its always green  
you're steppin over
