

'Til That Day

Tesla

Everything's so crazy
Just take it all in stride
Life's forever changing
So keep eyes opened wide

Cause i can't make
everything alright
I need to share
to shed some light
help me stumble thru the dark

I haven't any thing to hide
In times when explanation-ed why
When you questioned. those cloudy days
When skies are grey
I do my best to help you learn to find your way

Keep courage near
Too face your fears
Appreciate ...Each drop
of blood sweat and tears

So many paths that you can walk
Just listen close when your heart talks
Speaking from within
Cause it will never let you down
In times the only thing around
Unconditionally... the center of your soul, your being
To help you see, too touch, too feel
Always real...

What (I)? wish is more then make believe
I wish that you would grow to be
someone who loves and understands
and has the strength to learn to stand
on your own two feet... be all that you can be.
and know I always love you.
I will always love you... until the day I die...
Until the day I die.
