

## Absence of Light

Testament

Life, as we know  
Is full of gloom  
Oppress the masses  
We'll lead to our doom  
We want the right  
To live or die  
Can't take away  
What we feel inside

Like empty shadows  
Afflict our brains  
Envision dreams  
Just to ease the pain  
There's more to life  
Than to satisfy  
I ask myself  
For the reason why

If it were my way  
I'd deliver us from this hell  
If it were my way

If ever there comes a day  
Renovations blown away  
Is there no end  
To this endless war  
The fear of man  
Is now what's in store  
We look at life as a memory  
Long live the dreams  
That they took from me

If it were my way  
I'd deliver us from this hell  
If it were my way
