

# Face in the Sky

## Testament

Shadows glow from the full moonlight  
Hear clouds cry, it's so insane  
Souls hold on to the key of life  
See how it's bleeding from the pain

When will they open their eyes  
Stop to face our demise  
It's live or die  
Who am I?  
Face in the sky

Walk with me, my friend to a darkness place  
Welcome down to the abyss  
Caught between two worlds with no advocate  
The legion's army  
Holds on to your fate

When will they open their eyes  
Stop to face our demise  
It's live or die  
Who am I?  
Face in the sky

Screams from the night  
Seems to intensify  
As the air sifts silent through  
Ghouls crowded in the clouds  
On a misty night  
Guarding secret  
Man has brought to you

When will they open their eyes  
Stop to face our demise  
It's live or die  
Who am I?  
Face in the sky
