

# Let Go of My World

Testament

Listen now to my sordid tale  
My words they speak to you  
They testify  
You can't deny  
You see it's on so true  
I dwell in thoughts  
Of the universe  
What's immorality ?  
it's said to be  
The lies they breed  
The pages start to bleed  
How can this be ?  
Let go of my world  
Let it go ...  
Touch my soul  
With subliminal sin  
Deceptions they induce  
Ingest the lies  
Dissect the mind  
You can't control the youth  
Enslave the free  
With conformity  
Oppression takes its toll  
Hey little man  
Who are you  
To try to take control  
Of my soul ...  
Let go of my world  
Let me go ...  
Bleed me dry  
Read between the lies  
Filter out the truth  
Pick at my brain  
Brand me insane  
I know what I must do  
take my life into my own hands  
My sins I will atone  
It I don't cry  
I will reside  
Inside mental home  
Home sweet home ... Let go of my world  
Let it go ...
