

# Over the Wall

## Testament

I've been a prisoner  
Trapped in by fear  
Ordered for the rest of my life  
Condemned in a jail cell  
Ain't seen life in years  
Escape is the only way out

Restart my life  
Or self destruction  
To climb this wall  
Of dark construction  
Holding the quest for freedom  
That beckons me

My sanity is all but gone  
My patience is growing very weak  
I need to get a hold of myself  
I stare at the wall  
For the right time to come  
Escape must occur on this night

Restart my life  
Or self destruction  
To climb this wall  
Of dark construction  
Holding the quest for freedom  
That beckons me

Stand in my way  
And I'll run you straight through  
There's no one to stop me now  
For I'm on the loose  
And I'm ready to start  
Torture and hell on this town

Over the wall!!!

The search will not stop  
And the hounds will not rest  
Till I am back in my cell  
For if I am caught, I will try it again  
Over the wall I will go, I will go!!!

Restart my life  
Or self destruction  
To climb this wall  
Of dark construction  
Holding the quest for freedom  
That beckons me
