

Another Day

Texas

What seems like such a winter's tale
Lightening runs through the fallen flames
By kneeling down we're here to pray
At that point forsaken unafraid

I only wanna feel you being strong
I only wanna feel you being strong

Call me up and let's begin
Call me up and let's begin
Another day
Call me up and let's begin
Call me up and let's begin
You done that to me

Feel my breath go cold and calm
My pride is last and I sin again
And all the seasons change their scent
A year of hell they come against my head once more

I only wanna feel you being strong
I only wanna feel you being strong

Call me up and let's begin
Call me up and let's begin
Another day

Call me up and let's begin
Call me up and let's begin
You done that to me

Call me up and let's begin
Call me up and let's begin
Another day
Call me up and let's begin
Call me up and let's begin
You done that to me

Call me up and let's begin
Call me up and let's begin
Another day
Call me up and let's begin
Call me up and let's begin
You done that to me

Call me up and let's begin
Call me up and let's begin
Another day
Call me up and let's begin
Call me up and let's begin
You done that to me
