## **Asking for Favours**

Take it or leave it I'll always be there Take it or leave it Grant me a reason

Always come asking You'll never be mine I'll ask how much but you'll say I'll mind

You want to say Do you understand You wanna say

Take it or leave You're all by the phone Take it or leave it How much do I care

I try to learn a lesson Not very sure You always ask me How much did I hurt

You want to say Do you understand You wanna say Texas
