

# Bad Weather

Texas

Lovers come and lovers go  
Nothing lingers on  
It's more fun to take it slow  
Then it goes on and on

I need to explain, you can't stand me  
I've always done it for myself  
I do it again, you can't explore me  
You've been so good for my health

I know we can walk through rain  
But I don't wanna end up drowned again  
It's too much dancing in bad weather  
Makes it hard to stay together

Tell me where you wanna be  
I'm losing who we are  
That little place that we both need  
It sometimes seems so far

I need to explain, you can't stand me  
I've always done it for myself  
I do it again, you can't explore me  
You've been so good for my health

I know we can walk through rain  
But I don't wanna end up drowned again  
It's too much dancing in bad weather  
Makes it hard to stay together

I know we can walk through rain  
But I don't wanna end up drowned again  
It's too much dancing in bad weather  
Makes it hard to stay together

Wait a minute, baby  
I'll be here for a while  
Just wait a minute, baby  
You know I love your style

I know we can walk through rain  
But I don't wanna end up drowned again  
It's too much dancing in bad weather  
Makes it hard to stay together

I know we can walk through rain  
But I don't wanna end up drowned again  
It's too much dancing in bad weather  
Makes it hard to stay together

I know we can walk through rain  
But I don't wanna end up drowned again  
It's too much dancing in bad weather  
Makes it hard to stay together
