

# Fade Away

Texas

With every little smile do you know me better?  
You know I'm never what I seem  
'Cause I don't worry about the future  
My days, they pass just like a dream

Are you scared of what you're seeing?  
Does it make me seem so cruel?  
And now I'll ask you if I hurt you  
That's just something that I do

If you don't listen to me  
You'll stay the same  
You're just gonna fade away  
Fade away

If you don't listen to me  
You'll stay the same  
You're just gonna fade away  
Fade away

Listen, hear the secret in my voice  
Are you so gone that you can't hear?  
Scared, I've forgot you for no reason  
Maybe that's what you can't bear

Give me more than words and gestures  
And give me something I can keep  
That's how you get to love forever  
That's why you've gotta try and see

If you don't listen to me  
You'll stay the same  
You're just gonna fade away  
Fade away

If you don't listen to me  
You'll stay the same  
You're just gonna fade away  
Fade away

Fade away  
Fade away  
Fade away

If you don't listen to me  
You'll stay the same  
If you don't listen to me  
You'll stay the same

If you don't listen to me  
You'll stay the same  
And you'll fade away
