Hear Me Now

Where were you when the lights went out? I ask you this in your defence You fell for a river when all you wanted was a drink To me that never made much sense Hear me now With every word I breathe Believe in me if you can Yes, hear me now Like a long lost friend Believe in me if you can I live my life to the full each day 'Cause I'm scared of not being alive Well, all that I'm wanting is the same for you Don't want to tell you any lies Hear me now With every word I breathe Believe in me if you can Yes, hear me now Like a long lost friend Believe in me if you can To all those people that I've never known You know I could do untold harm So find me a witness Who can justify a reason Let them come and raise their hand Hear me now With every word I breathe Believe in me if you can Yes, hear me now Like a long lost friend Believe in me if you can Hear me now With every word I breathe Believe in me if you can Yes, hear me now Like a long lost friend Believe in me if you can
