

## Hid From the Light

Texas

Can you see her in me  
Lost of all emotions  
Watch me dance in your face  
Feels the longest sentence

Falling around her long black hair  
The beggars and the thieves and all who dare  
You know all that love her will despair  
'Cause what they'll find there  
Is hid from the light

Can you see her in me  
Lost of all emotions  
Watch me dance in your face  
Feels the longest sentence

Falling around her long black hair  
The beggars and the thieves and all who dare
