

# I Need Time

Texas

Time  
Is all I need  
To find somebody  
Someone just for me

Time  
Is all I need  
To find somebody  
Someone just for me

In comes a darkness then falls the night  
Send a heavenly creature to turn on my light

Time  
Is on my side  
When there's nobody  
To play in my mind

Taking my time now to let myself go  
You got myself steady and ready, I know

I find it so funny after so long  
The way you look at me  
Just don't understand  
It still feels oh so wrong

Cause time  
Is all I need  
To find somebody  
Someone just for me

Cause time  
Is all I need  
To find somebody  
Someone just for me

In comes a darkness then falls the night  
Send a heavenly creature to turn on my light

Not sentimental, don't wanna be friends  
You know that was killing me, ran in deep end  
Advance straight through your hands

Time,  
I got time  
Time,  
Oh it's my time
