

## I Will Always

Texas

Always my love  
It has never been this way before  
And all of the words that I hold  
Let him come knock on my door

You don't know  
Who to turn to  
That I know  
But you're always  
You're always  
You're always  
Forever, my love

Try to be better than this  
For never let the music  
For so many lies and a kiss  
So please don't let the music

You don't know  
Who to turn to  
Yes, I know  
But you're always  
You're always  
You're always  
Forever, my heart

Yes, you're always  
You're always  
You're always  
Forever  
You will always  
Always  
You'll always  
Forever be in my heart
