## Postcard

I've been dreaming

For days now Jump in the sea I do that easily The sounds drowning

What I'm seeing

I'll send you a postcard from heaven's ocean I feel like staying here in heaven's ocean

I'll send you a postcard from heaven's ocean I feel like staying here in heaven's ocean

Count everyone for questions I have not known

There's a storm In my thoughts now Come wash me clean Beneath the waves with me

Now we're smiling See me smiling Silence is what I need It's only in the sea

I'll send you a postcard from heaven's ocean I feel like staying here in heaven's ocean I'll send you a postcard from heaven's ocean I feel like staying here in heaven's ocean

I'll send you a postcard from heaven's ocean I feel like staying here in heaven's ocean I'll send you a postcard from heaven's ocean I feel like staying here in heaven's ocean

I'll send you a postcard from heaven's ocean I feel like staying here in heaven's ocean
