

# Thrill Has Gone

Texas

Listening I hear your voice  
Together you and I have nothing left to carry on  
And I'm seeing you slip away  
Cause you never cared  
You never even realised

R: Now the thrill has gone  
Cause I can see it in your eyes  
Now the thrill has gone  
And it was you who threw it all away  
Now the thrill has gone

Wondering as I look outside  
Changes all around  
There's nothing left here to hide  
And I'm asking you have you lost your soul  
Cause you never cared  
You never even realised that I wasn't there

R:

Say to me what I want to hear  
Say to me what I want to hear  
Say to me what I want to hear  
Cause you never cared  
You never even realised that I wasn't there

R: (3x)
