

# Waiting For the Fall

Texas

What will they say to change our ways  
When all we see, skies crying down  
What do they say when the rain pours down  
They see no sense at all

Oooh waiting for the fall  
Oooh waiting for the fall

What will they say when you hide away  
In their shelter  
What will they say when they're left to pray  
All alone in the storm

Oooh waiting for the fall  
Oooh waiting for the fall

See the change from day to night  
Then you wanted to come back in  
They never blessed you with everything that we know  
It's when we'll need you back in through a door

Oooh waiting for the fall  
Oooh waiting for the fall
