

Next Time Around

TGT

What was I thinking, I know I fucked up
But I can't do this without you
Why can't we just, damn
Whoa Oh, She's packing everything in the room
I'm going crazy like, Whoa Oh
I knew that this day was coming soon but I'm feeling like, Whoa Oh
This can make a grown man cry and having him sounding like, Whoa Oh
It may hurt but it's still not enough to give up

On everything, on everything
I'm still trying to buy you a house and a ring
On everything baby I'm a change
I'm a get it right so when you come back girl it won't be the same
And I'll be ready for next time around
And I'll be ready for next time around
Cause right now it feels like pain
Feel like the Sun lost a fight with the rain
I know right now it's over
But I'll be ready for next time around

Oh, oh, oh, oh, oh
Whoa Oh, I'm gone need a shot of that Henn, cause I'm feeling like, Whoa Oh
Tell me how the hell- again, tonight I'm screaming like, Whoa Oh
Baby girl gave me signs, a woman will give you signs when she's feeling like
, Whoa Oh
I guess she's no longer mine but I'mmm give her sometime to reconsider

On everything, on everything
Still trying to buy you a house and a ring
On everything baby I'm a change
I'm a get it right so when you come back girl it won't be the same
And I'll be ready for next time around
And I'll be ready for next time around
Cause right now it feels like pain
Feels like the Sun lost a fight with the rain
I know right now it's over
But I'll be ready for next time around

A real man admits when he's wrong, admits when he's gone, admits when he loves her
A real man gone pick up the phone saying "Please come home I can't love another"

On everything, on everything
Still trying to buy you a house and a ring
On everything baby I'm a change
I'm a get it right so when you come back girl it won't be the same
And I'll be ready for next time around
And I'll be ready for next time around
Cause right now it feels like pain
Feels like the Sun a the fight with the rain
I know right now it's over
But I'll be ready for next time around
