

Check this out baby girl  
There's a few things I wanna explain to you, ya know  
Now if you gon' be with me we gotta vibe together  
Now that word means a whole lot to me  
Now what I mean by that, it's simple as this  
You gotta open up your head  
Matter of fact, open up your mind  
And let me put my head inside of your head  
So you can think like me  
And move like me and vibe like me  
You know what I'm talkin' bout?

You can smoke, you can roll  
You can move, you can groove  
You can drink, you can ride  
You can vibe with a pimp  
You can bounce, you can tip  
You can slip, you can ride  
You can shake, you can slide  
You can vibe with a pimp

You can vibe with a pimp, ride with a pimp  
Dip when I dip, come by my crib  
Post with a playa, let me show you what it is  
I don't really want too much mama, just a little bit  
I came to give you want you want mama, wait a little bit  
Got this place I gotta get to, I'm a tell you what it is  
You can roll, you can post, we can ride up on the coast  
Just post with your folks, just vibe with a pimp  
See what I see, she said I'm G'd up, I said I'm guilty  
Now run up in the spot girl and throw on somethin' silky  
Bad to the bone, pure redbone  
Vibe with a playa, and show me what you're made of  
Ridin' with the all chrome D's on the Brougham  
Out to get the paper, sparklin' like my Dana's  
Wide with the all gold hundred-spokes on  
G'd as I wanna be, can't you see what I see?

You can smoke, you can roll  
You can move, you can groove  
You can drink, you can ride  
You can vibe with a pimp  
You can bounce, you can tip  
You can slip, you can ride  
You can shake, you can slide  
You can vibe with a pimp
