

Every Time I Try

that dog.

What do you want to do (what do you want to do)
What do you want to do (what do you want to do)
Hey I'm talking to you, my friend
What do you want to eat
Where do you want to sleep
Are you talking to me, my friend

I have this problem with you
I want to work it out, but I don't know how to
Every time I try
Every time I try I cry over you

Where are you gonna be
If you stay here with me
Are you walking in your sleep again

I have this problem with you
I want to work it out, but I don't know how to
Every time I try
Every time I try I cry
Cry
Cry
Cry
Cry
I have this problem with you
I want to work it out, but I don't know how to
Every time I try
Every time I try I cry
I cry
Over
I cry
Over you

I want to work it out, but I don't know how to
I want to work it out, but I don't know how to
I want to work it out, but I don't know how to
Every time I try
Every time I try
I want to work it out, but I don't know how to
Every time I try
I want to work it out, but I don't know how to
