

## Every Time I Try

that dog.

What do you want to do (what do you want to do)  
What do you want to do (what do you want to do)  
Hey I'm talking to you, my friend  
What do you want to eat  
Where do you want to sleep  
Are you talking to me, my friend

I have this problem with you  
I want to work it out, but I don't know how to  
Every time I try  
Every time I try I cry over you

Where are you gonna be  
If you stay here with me  
Are you walking in your sleep again

I have this problem with you  
I want to work it out, but I don't know how to  
Every time I try  
Every time I try I cry  
Cry  
Cry  
Cry  
Cry

I have this problem with you  
I want to work it out, but I don't know how to  
Every time I try  
Every time I try I cry  
I cry  
Over  
I cry  
Over you

I want to work it out, but I don't know how to  
I want to work it out, but I don't know how to  
I want to work it out, but I don't know how to  
Every time I try  
Every time I try  
I want to work it out, but I don't know how to  
Every time I try  
I want to work it out, but I don't know how to
