

## Marked For Diablo

Thaurorod

The first day in battle more ghastly than hell  
Death in my eyes all around where I mend  
And as they dragged off the fragments of you  
My fears they faded away with you

All of these years in the coldness of war  
The fields are covered in blood and my hope it has gone

We are marked for Diablo  
We are marked for Diablo

At dawn I gather my sword and my shield  
Wishing the last day for me would have begun  
And as they dragged off the fragments of you  
My fears they faded away with you

Mile after mile I'll get farther from home  
Where my loved ones await but deep down I still know...  
We re never coming back

We are marked for Diablo  
We are marked for Diablo

All of these years in the coldness of war  
The fields are covered in blood and my hope it has gone  
Mile after mile I'll get farther from home  
Where my loved ones await but I feel...

We are marked for Diablo  
With nowhere to run  
We are marked for Diablo  
With nowhere to hide  
We are marked for Diablo  
We are marked for Diablo
