

Overboard

Thaurorod

Gaze upon home shore
We will be journeying through the stormy oceans
Hearts on fire burning desire
Winds by our side
And we will make our way into the edge of the world
Now unfolding the secrets of the sea

And all of those years we strove hard
We sailed through the waters unknown
Then the power of the sea displayed on our heel
You are overboard by the port
You are...

Overboard - you can't drag us to shore
Overboard - Unchained now without you
Overboard - Yes stronger we grow
Embraced by the surge take us to the horizon

Now nothing but scars
And our passion to conquer the oceans
Hunger to go further on

And all of those years we strove hard
We sailed through the waters unknown
Then the power of the sea displayed on our heels
You are overboard by the port
You are...

Overboard - You can't drag us to shore
Overboard - Unchained now without you
Overboard - Yes stronger we grow
Embraced by the surge take us to the horizon

Overboard - You can't drag us to shore
Overboard - Unchained now without you
Overboard - Yes stronger we grow
Embraced by the surge... You are overboard by the port

Overboard - You can't drag us to shore
Overboard - Unchained now without you
Overboard - Yes stronger we grow
Embraced by the surge take us to the horizon
