It's Not Living (If It's Not with You)

Danny ran into some complications He falls asleep during conversations He's gotta search the street When he's on vacation The worst thing is that I'm in the same situation

And all I do is sit and think about you If I knew what you'd do Collapse my veins wearing beautiful shoes It's not living if it's not with you

And Danny says we're living in a simulation But he works in a petrol station (Selling petrol) He says it all began with his operation And I know you think you're sly But you need some imagination

And all I do is sit and think about you If I knew what you'd do Collapse my veins wearing beautiful shoes It's not living if it's not with you

All I do is sit and drink without you If I choose then I lose Distract my brain from the terrible news It's not living if it's not with you

I can't stop sweating Or control my feet I've got a twenty-stone monkey That I just can't beat I can stage a situation But I just can't eat There's a feeling You're replacing embrace

And it's true that All I do is sit and think about you If I knew what you'd do Collapse my veins wearing beautiful shoes It's not living if it's not with you

All I do is sit and drink without you If I choose then I lose Distract my brain from the terrible news It's not living if it's not with you

I'll try to get a job in a bank I think Danny spent his time trying to pack in the drink

It's not living if it's not with you It's not living if it's not with you
