

Medicine

The 1975

I find it hard to say "bye bye"
Even in the state of you and I
And how can I refuse?
Yeah you rid me of the blues
Ever since you came into my life

Cause you're my medicine
(Yeah, you're medicine)
Yeah, you're my medicine
(You're medicine)

I, I wanna marry you
Said I, I adore you
And that's all I have to say, bye-bye
And you opiate this hazy head of mine

Cause you're my medicine
(Yeah, you're medicine)
Yeah, you're my medicine
(You're medicine)

Cause you're my medicine
(Yeah, you're medicine)
Yeah, you're my medicine
(You're medicine)
(You're medicine)
