

Learn How to Fly

The 5th Dimension

I guess I'll learn how to fly
For that's the only way that I can get over you
Darling ever since you've been gone
I've been down on the ground

I can buy you out of my life
But it really wasn't worth the price
Because as soon as my tears have gone
Memories of you kept lingering on

I guess I'll learn how to fly
For that's the only way that I can get over you
Darling ever since you've been gone
I've been down on the ground

I keep telling myself you were just no good
And you were not my kind
But obviously I've made a fool of myself
'Cause you're always on my mind

I guess I'll learn how to fly
For that's the only way that I can get over you
Darling ever since you've been gone
I've been down on the ground
