

Angel on My Shoulder

The 69 Eyes

I wanna feel you now like a thousand lies bleeding
Out of your heart burning in the night don't wanna see you crying
Fallen out of light I wanna feel you now like an August rain
Kissing summer goodbyes I wanna see your pain
I don't wanna see your crying fallen out of light
I don't wanna see your crying little angel on my shoulder
I wanna see you flying back to heaven where you belong
I wanna feel you now like a thousand knives digging out
Of my heart burning in the night
I don't wanna see your crying fallen out of light
I don't wanna see your crying little angel on my shoulder
I wanna see you flying back to heaven where you belong
Don't wanna see your crying little angel on my shoulder
I said alright gonna get you crying come hell
Or high water since you've been gone
