## The 69 Eyes

Times are getting harder everyday  
stars seem to be so far away  
but she's waitin' for me  
I'm sure she does

She's Ba-Barbarella Barbarella  
My lazer-shootin' planet queen

Everytime I see this movie  
I feel so cosmic 'n' groovy  
When she's starin' at me  
From my own TV

She's Ba-Barbarella Barbarella  
My lazer-shootin' planet queen

She's the sleaze goddess travelling through the space  
A good body a beautiful face  
The electric universe blows my mind  
A trip in her shin there's no other kind
