

Grey

The 69 Eyes

As the night draws
Its shadows on you
And the darkness turns you blue
As the darkness turns you blue
And the night follows you
Don't let the moonlight burn you

Please stay-don't let it burn away
And if you stay-let it turn us grey

As the night falls
Seals you through
And the darkness
Turns you blue
And the night surrounds you
Don't let the moonlight
burn you

Please stay-don't let it burn away
And if you stay-let it turn us grey
