

Lost Without Love

The 69 Eyes

How many times didn't we learn
Leaving us shattered, lost in words
Breaking us down, tearing us apart
It cuts deep in our hearts
We're lost without love

Run from it all
Facing the wall
Leaving us stranded on this ground
Calling your name, losing the flame
It's like poison through my veins

We're lost without love
We don't know until it's gone
Now I'm lost without your love
We just had to let it go
Now we're only empty
We walk away, don't turn around
Leaving hearts underground
But we try to find
Something beautiful
Something beautiful inside
We're lost without love
We're lost without love

Run from it all
Facing the wall
Leaving us stranded on this ground
Calling your name, losing the flame
It's like poison through my veins
We're lost without love
Tearing us apart

We're lost without love
We don't know until it's gone
Now I'm lost without your love
We just had to let it go
Now we're only empty
We walk away, don't turn around
Leaving hearts underground
But we try to find
Something beautiful
Something beautiful inside
We're lost without love
We're lost without love
And I miss your touch

How many times didn't we learn
Leaving us shattered, lost in words
Breaking us down, tearing us apart
It cuts deep in our hearts

We're lost without love
We don't know until it's gone
Now I'm lost without your love
We just had to let it go
Now we're only empty

We don't know until it's gone
Now I'm lost without your love
We just had to let it go
Now we're only empty
We walk away, don't turn around
Leaving hearts underground
But we try to find
Something beautiful
Something beautiful inside
We're lost without love
