

Still Waters Run Deep

The 69 Eyes

Everytime I hear you breathe
In the still night next to me
And your innocent heart to beat
I feel so complete
Just let me listen
to you gentle breathe
No words do we need
Let your innocent heart speak
Still waters run deep

What you say
what you do
You do it all for me and you
What I do
What I say
I do it all to be this way

Everytime I hear you breathe
In the still night next to me
And your innocent heart to beat
I feel so complete
Just move a little
bit closer to me
No words do we need
Let your innocent heart speak
Still waters run deep

What you say
what you do
You do it all for me and you
What I do
What I say
I do it all to be this way
