

Suspiria Snow White

The 69 Eyes

What it's like in the night
To sleep alone in the pale moonlight
What it's like in the night
To sleep alone in those sheets so white

And you're dreaming someone else's dreams
And there's no one to hear you scream, to hear you scream

What it's like to sleep alone in the night
What it's like Suspiria Snow White

What it's like in the night
To sleep alone with the thunder and the light
What it's like in the night
To sleep alone with those demons insight

And you're dreaming someone else's dreams
And there's no one to hear you scream, to hear you scream

What it's like to sleep alone in the night
What it's like Suspiria Snow White
