

Here In My Heart

The 6ths

There's a beautiful song since you came along
Here in my heart, there's a beautiful sound since you came around
Here in my heart, there's a soft summer rain since the day that you came
Here in my heart, there's a whole wonderland when I'm holding your hand

Here in my heart you planted a seed
Here in my heart you're all I need

When you're gone, I'm alone and I cry
But I know you'll come home by and by
In the gloom of my room, night and day
Till my eyes turn as red as a flame crying your name

In a year, will these tears turn to joy
Or am I just a vice, just a toy?
In a while will your smile fade away?
Will we be history gone astray?
Nothing to say?
