

In The City In The Rain

The 6ths

In the city in the rain you've got a beautiful face
In the city in the rain you vanish without a trace
In the city in the rain you've got mysterious ways
In the city in the rain I'm gonna spend all my days

I think I'm gonna dance
All night long
I think I'm gonna dance
Till the moon goes down

In the city in the rain, inside a smoky cafe
In the city in the rain you tell me that you'll stay
In the city in the rain you suddenly slip away
In the city in the rain I'm gonna spend all my days

I think I'm gonna dance
All night long
I think I'm gonna dance
Till the moon goes down

In the city in the rain I hear the screaming of tires
In the city in the rain I'm setting myself on fire
In the city in the rain among the beautiful lights
In the city in the rain I think I'll dance all night

I think I'm gonna dance
All night long
I think I'm gonna dance
Till the moon goes down
