

Honey I don't think it's funny
Where is all the money I need you to save me
Don't be how's the dope below me
Take it out to show me
Dying just to throw me
Downcast whiplash and down in the stall
You'll believe me
Baby I need hope to save me
Tell me I'm not crazy I know that it's sold
It's very soon very soon
Afterlife I saw big
Things and they were coming for me
And tar in tile life Afterlife
