

# There Is No End

The Abyssinians

There is no end lyrics  
Yes, my friend  
This is not the end  
You've got life to live, my friend  
And not life to give  
Stop blaming yourself  
And find someone else

I'm not the only fool  
Stop breaking the rule  
Things you did to me  
Puts you in misery

Stop going around, blaming yourself  
For the things done by someone else  
Do the right things, speak the truth  
And your days will be much longer

Tomorrow is another day, day

Tomorrow is another day  
Tomorrow is another day

I'm not the only fool  
Stop breaking the rule  
Things you did to me  
Puts you in misery

Stop going around, blaming yourself  
For the things done by someone else  
Do the right things, speak the truth  
And your days will be much longer

Tomorrow is another day, day  
Tomorrow is another day  
So don't you go away and stay  
Tomorrow is another day
