

Summer Hair = Forever Young

The Academy Is...

We're crashing cars we used to share
with summer girls
with summer hair
we're driving 'round chasing the stars
but the party's busted up
before it ever starts

i'll never let you go
don't ever forget
tell me you'll remember
forever young
i'll never let you fall
it's not over yet
you and me forever
forever young
we're forever young

stop making plans, start making sense
don't you believe a word they said
sparked up sparked up like a book of matches
falling through the night
rising from the ashes

i'll never let you go
don't ever forget
tell me you'll remember
forever young
i'll never let you fall
it's not over yet
you and me forever
forever young
we're forever young

don't come any closer
don't tell me it's over
don't kiss me goodbye
here we are, am i taking this too hard?
don't say it's easy
The hardest part is leavin
don't you wonder why...
suddenly, we're all running out of time

i'll never let you go
don't ever forget
tell me you'll remember
forever young
i'll never let you fall
it's not over yet
you and me forever
forever young
we're forever young
we're forever young
we're forever young
