

## Telepathic People

The Adicts

Come, and wash away  
The sins of two of us  
They're creeping out  
Crawling out  
Searching for some decency  
Sold, my soul away  
To keep you coming back  
Calling back  
They told me it was lunacy  
Desensitize me, you fool I can be  
Anything you want me to  
Just sit right back, are you with me, with me  
If it happens to me  
It'll happen to you sometime  
Are you happy to see?  
I learned my lesson too  
Don't hesitate  
You see me reaching out  
Calling out  
Is it all about your place up in society?  
Last effort  
Hooked and sold  
But then you threw be back  
Within a flash  
You took out the trash  
And wiped your hands above my face  
Desensitize me, you fool I can be  
Anything you want me to  
Just sit right back, are you with me, with me  
If it happens to me  
It'll happen to you sometime  
Are you happy to see?  
You learn your lesson too  
'Cause it comes in time  
Yes it comes in time  
You'll learn your lesson too  
Comes in time  
Goes away  
Leaves you blind  
Rapes your mind  
And it strips you of your sanity  
Comes in time  
Goes away  
Leaves you blind  
And it strips you of your sanity  
If it happens to me  
It'll happen to you sometime  
A lesson I've learned in life  
I've learned in life
