

# Beautiful Love

## The Afters

Far away, I feel your beating heart  
All alone, beneath the crystal stars  
I'm staring into space, what a lonely face  
I'll try to find my place with you

What a beautiful smile  
Can I stay for a while?  
On this beautiful night  
We'll make everything right  
My beautiful love, My beautiful love

Larger than the moon, my love for you  
Worlds collide, as heaven pulls us through  
The secret of the world is written in the stars  
I'm carrying your heart in mine

What a beautiful smile  
Can I stay for a while?  
On this beautiful night  
We'll make everything right  
My beautiful love

Maybe a greater thing will happen  
Maybe all will see  
Maybe our love will catch like fire  
As it burns through me  
(3x)

What a beautiful smile  
Can I stay for a while?  
On this beautiful night  
We'll make everything right

What a beautiful smile  
Can I stay for a while?  
On this beautiful night  
We'll make everything right

My beautiful  
La la la la love  
La la la la love

My beautiful  
La la la la love  
La la la la love

My beautiful love
