

Life Is Sweeter

The Afters

My heart is giving up
All my plans are broken
Your face is all I see
Though my world is falling
As I watch you head into the sun
I never thought it was my one
Chance to say goodbye
I never want to say goodbye

Life is sweeter, sweeter
On the other side, on the other side
I will see you, see you
On the other side, on the other side
I'll find the stars to light me through
I'll find a way to get to you
Life is sweeter on the other side of here

So far from where you are
But I feel you with me
Your in the place where I belong
Where my life is waiting
As I watch the rising of the sun
I pray that I could have just one
Chance to say goodnight
I never want to say goodbye

Life is sweeter, sweeter
On the other side, on the other side
I will see you, see you
On the other side, on the other side
I'll find the stars to light me through
I'll find a way to get to you
Life is sweeter on the other side of here

Everyday I get a little bit closer
To reaching you
But I can't wait, till I'm with you forever
Everyday I get a little bit closer
To reaching you
But I can't wait till I hold you forever

Life is sweeter, sweeter
On the other side, on the other side
I will see you, see you
On the other side, on the other side
I'll find the stars to light me through
I'll find a way to get to you
Life is sweeter on the other side of here
On the other side of here
