

We Are The Sound

The Afters

Now is the time we have
Take it, never give it back
Say what you mean to say
This could be your only chance

Everybody's watching out
For someone who can show them how
To be what they wanna be and
Stand never backing down

Here we are
Here we are

We are the sound
We are the siren
We're all around
And we won't stop singing it out

Shout it out
Like you believe it
We'll break it down
When we all start singing it out
Shout it out now

Silence is an enemy
That keeps us from the things we need
It ages but it never grows
So quiet that we start to bleed

Lets shake it off and let it go
Forgetting what we think we know
We'll make it all a memory
We're taking back control
